

RPI BEARINGS

POWERING PERFORMANCE. ENSURING RELIABILITY.

Engineered for precision. Built for durability. RPI Bearings deliver exceptional performance across a wide range of industrial and automotive applications.

1. BALL BEARING

FEATURES

- ✓ Low friction & noise
- ✓ High speed capability
- ✓ Smooth operation
- ✓ Long service life

APPLICATIONS

Electric Motors Pumps Fans Gearboxes

2. NEEDLE ROLLER BEARING

FEATURES

- ✓ High load carrying capacity
- ✓ Compact design
- ✓ High rigidity
- ✓ Low friction

APPLICATIONS

Automotive Transmissions Two Wheeler Engines Industrial Machines

3. THRUST BEARING

FEATURES

- ✓ Handles axial loads
- ✓ High load capacity
- ✓ Precise alignment
- ✓ Durable performance

APPLICATIONS

Machine Tools Automotive Clutches Marine Applications

4. PILLOW BLOCK BEARING

FEATURES

- ✓ Easy installation
- ✓ Self aligning capability
- ✓ High strength housing
- ✓ Low maintenance

APPLICATIONS

Conveyor Systems Agricultural Machinery Industrial Equipment

5. SPHERICAL ROLLER BEARING

FEATURES

- ✓ High radial & axial load capacity
- ✓ Self aligning
- ✓ Suitable for harsh conditions
- ✓ Long operating life

APPLICATIONS

Mining Equipment Vibrating Screens Heavy Duty Machinery

6. TAPER ROLLER BEARING

FEATURES

- ✓ High radial & axial load capacity
- ✓ Rigid & durable
- ✓ Easy to mount & dismount
- ✓ High precision

APPLICATIONS

Automotive Hubs Trucks & Trailers Gearboxes

7. CYLINDRICAL ROLLER BEARING

FEATURES

- ✓ High radial load capacity
- ✓ High speed capability
- ✓ Low friction
- ✓ Long service life

APPLICATIONS

Electric Motors Industrial Gearboxes Pumps

8. AUTOMOTIVE BEARING

FEATURES

- ✓ High reliability
- ✓ Withstands high load & shock
- ✓ High precision
- ✓ Long service life

APPLICATIONS

Wheel Hubs Alternators Water Pumps
